| N                           | N                                       | rpm                                       |               |                        |    |    |  |    |                |
| 6 950                       | 7 120                                   | 25 000                                    |               |                        |    |    |  |    |                |

Notes: (1) Minimum allowable value of chamfer dimension r.  
(2) Allowable rotational speed applies to grease lubrication.  
Remark: This roller ring has an oil groove and an oil hole.  
2. Bearings with seals on both sides are provided with prepacked grease. Bearings with a seal on one side are not provided with prepacked grease. Perform proper lubrication for use.

## CARATTERISTICHE DEL PRODOTTO

|                  |               |
|------------------|---------------|
| Marchio          | IKO           |
| N° Ean13         | 3663952385143 |
| Diametro interno | 12 mm         |
| Diametro esterno | 24 mm         |
| Spessore         | 13 mm         |
| Imballaggio      | 1             |
