Description

LOCTITE® LB 8200 is a light yellow, low viscosity penetrating mineral oil containing corrosion inhibitors that releases rusted mechanisms such as threads, hinges etc. The released parts remain lubricated and protected from corrosion. This product is typically used in applications with an operating range of +23 °F to +117 °F (-5 °C to +55 °C).

Avantages

Low viscosity
Contains corrosion inhibitors
Registered to NSF Category H1 for use as a lubricant with incidental food contact in and around food processing areas

Caractéristiques

Low viscosity penetrating mineral oil containing corrosion inhibitors that releases rusted mechanisms such as threads, hinges etc.

CARATTERISTICHE DEL PRODOTTO

Marchio	LOCTITE
N° Ean13	4058093008751
Peso	368 g
Imballaggio	1
